Listing Trends Over Years

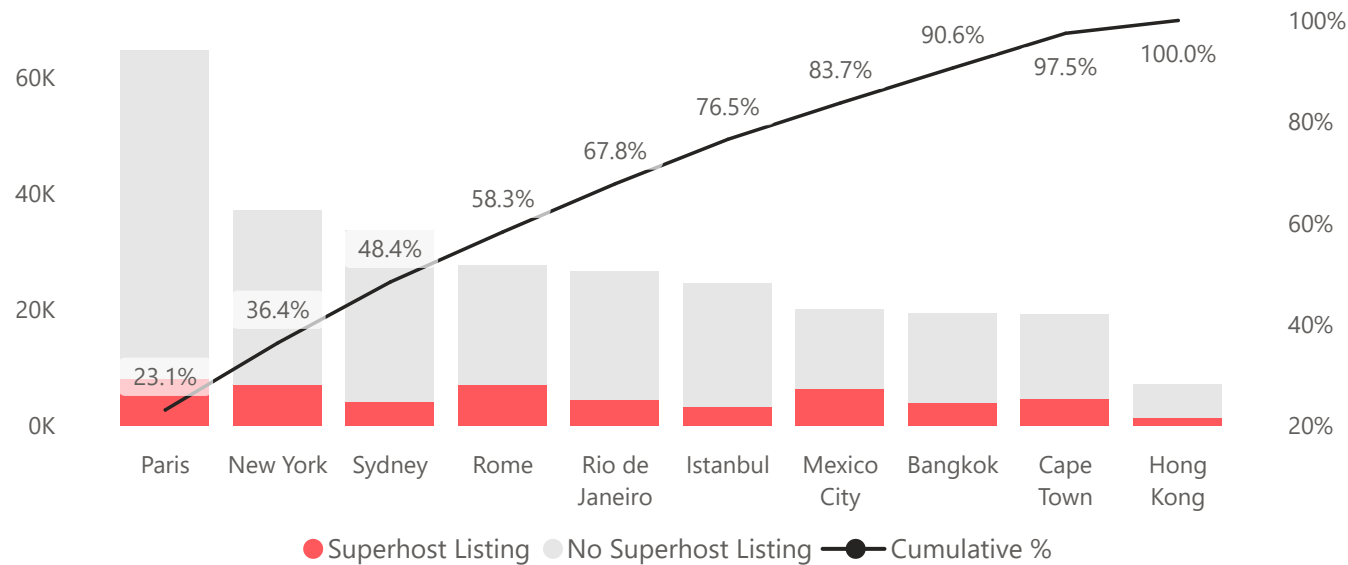

In 2015, Airbnb reached the **highest** number of listings. 2016 and 2017 saw a restrain also due to a tightening in local regulations. Despite this, Airbnb became **profitable** in the second half of 2016, and 2017 marked the first year of generating income. From 2018, there was a growth stopped in 2019 by the **covid-19** pandemic.
